PROJECTS

Seeattle | github.com/Manofsilva/Seeattle | seeattle.herokuapp.com/
A web application that allows you to organize your travel plan in Seattle by building an itinerary of sites.
    Created the overall design of the website including the logo and the page layouts.
    Served as project manager, and fulfilled both front and back end roles.
    HTML, CSS, Javascript, Express, Sequelize, MySQL, Google Maps API.

Kindler | github.com/Manofsilva/Kindler | www.youtube.com/watch?v=9QN2OPpL3Kc
An interactive React Native mobile application that helps users plan fun activities for their date nights.
    Conducted quality assurance of the mobile application to ensure a smooth UI/UX.
    Assisted in the creation of custom API routes and front end design for certain components.
    MongoDB, Express.js, React Native, Node.js, Cheerio, Moment.js, Google Authentication.

React Book Search| github.com/Manofsilva/React_Google_Books_Search | booky.herokuapp.com/
User can search for books via the Google Books API and render them in the app. User has the option to "View", "Save", or "Delete" a book from the Mongo database.
    Implemented UI into component so to manage component state, and React lifecycle methods.
    Served as project manager, and fulfilled a full-stack role to be more familiar with MERN stack.

EXPERIENCE

University Of Washington, Customer Service Representative, Seattle, WA   06/2018 - Present
    Developed a comprehensive and thorough training plan for all incoming team members.
    Supported team knowledge management processes, including identification and verification of additions or
        changes to the working repository of knowledge content.
    Delivered to an outstanding customer-service environment, including strong collaboration with other team
        members and subject matter experts.
